Summary

Senior Full Stack Microsoft Dot Net Developer specializing both in front end and backend development. Experienced with all stages of the advanced software development cycle for dynamic web projects. Well-versed in numerous programming languages and frameworks including C#.Net, Java, HTML5, OOP, JavaScript, CSS, MySQL, MS SQL Server and experienced team player with excellent communication and interpersonal skills who can work independently under pressure can lead, motivate, and influence others and can train and mentor subordinates.

Skills Highlights

- Microsoft C# .NET, Java
- Asp.net MVC
- Web Apis
- MS SQL Server, MySQL
- Html & CSS
- Microsoft Azure DevOps
- Git
- CI / CD Pipeline
- Custom CRM Module Development/ERP
- Asp.net Web Forms
- Dot Net Core,
- Rest Apis
- Crystal Reports
- JavaScript, jQuery, Ajax
- Microsoft Azure Functions
- GitHub
- Custom Sales Module Development/ERP
- Console Applications

ERP Skills Highlights

- Custom CRM Module
- Custom Accounts Module
- Custom Cost Management Modules
- Custom Sales Module
- Custom Inventory Module
- Custom Asset Management Modules

Microsoft Dynamics CRM 1.2 (2003)

- Sales Process Management
- Contact Management
- Inventory Control Management
- Accounts Management
- Activity History
- Financial System Management

Azure Skills Highlights

- Azure Active Directory
- Azure App Services
- Azure Service Bus
- Azure Security Services.
- Azure Function
- Azure Storage
- Azure Sql

WORK EXPERIENCE

Senior Dot Net Full Stack Web & Azure Cloud Developer (Team Lead). (October 2024 – Continue)

Aklogics consultancy Qatar (Resident Dukhan Bank)

- Writing clean, testable, and maintainable code in languages like Java, C#. Implementing unit tests, and end-to-end tests to ensure correctness.
- Developing and maintaining online banking portals and in-house financial and other software.
- Making key architectural decisions, often migrating legacy systems to modern cloud-native architectures (e.g., Kubernetes, serverless) to improve agility and reduce operational costs
- Handling Microsoft Azure Related Activities like (Azure AD, Azure Sql, Azure App, Azure Storage, Azure Function, Azure Hub etc.).
- Preparing Power BI Reports and Performing integration with digital bank system.
- Migrating legacy frontends to modern angular framework.
- Performing bank system integration with QCB (Qatar Central Bank).
- Designing and implementing internal and external APIs (using REST or Soap etc.) for services ranging from customer-facing mobile apps to third-party financial.
- Building and maintaining continuous integration and continuous deployment pipelines to automate testing and release cycles, allowing the bank to deploy new features quickly and safely.
- Mentoring the junior developers

Senior Dot Net Full Stack Web & Azure Cloud Developer. (Jan 2021 – Sept 2024)

INAXUS SOLUTIONS DUBAI

- Develop high-quality software design and architecture.
- Building and maintaining Web Api and Rest Api architecture. (Rest & Soap).
